

The instructions below assume that you are logged in to AusCarrier (<http://app.auscarrier.com.au/>) and are viewing the Available Carriers page.

Australia Post

Fastway

Step 1. Click here

To use Fastway you need an API key from Fastway

API Key

Activate

Get your API Key

The API key is required for pretty much all calls. Any call you make gets logged against the key. Also, any additional permissions you request are assigned to the key.

First Name

Last Name

Email Address

Password

Confirm Password

Country

Create API Key

Resend API Key

If you forgot your API key, you can enter the email address here and get it resent to you.

Step 2. Fill out this form with your details.

Step 3. Click Create API Key

Alert!

This is the latest version of the API! It is subject to change and may contain bugs! Use only for testing new features or at your own risk.

Success! Your user has been created. Your API key is: `72df52fffe7d56c8efebbf7f7a656d17`

Get your API Key

The API key is required for pretty much all calls. Any call you make gets logged against the key. Also, any additional permissions you request are assigned to the key.

Step 4. Select your API key and copy to clipboard (CTRL+C for Windows users, Command-C for Mac users)

Email Address

address

Step 5. Paste API Key into Fastway Carrier.

To use Fastway you need an API key from Fastway

API Key

`72df52fffe7d56c8efebbf7f7a656d17`

Activate

Step 6. Click Activate to test and Save the API Key.
If you receive an error message, please generate a new Fastway API key from Step 2.

Now head over to your storefront, Add something to your Cart to see Fastway shipping now available.
